

Expandable Stainless Steel Dish Drying Rack

# CLEAN EDGE DISH RACK

## 304 Stainless Steel Construction

Made with durable, corrosion-resistant SUS 304 stainless steel for hygienic use. The sturdy 7-8 mm frame provides excellent stability and helps prevent deformation during use. Additional wire reinforcement covers exposed cut edges for enhanced safety.

## Pull-Out Extension Tray

The pull-out tray extends whenever you need extra space. The rack fits within a sink unit measuring 60 cm (23.6") from front to back and is ready to use without installation.

## Auto-Draining Water Tray

The sloped tray allows water to flow directly into the sink without pooling. Sloped sides guide water toward the center for efficient drainage and help prevent overflow.

## Accessories by Model

### Multi-Purpose Shelf

The detachable shelf provides extra storage wherever you need it. Use it to organize spices or add storage in drawers and under-sink cabinets.

### Cutting Board & Dishcloth Holder

Conveniently stores both cutting boards and dishcloths. The sturdy design securely holds even heavier cutting boards.

### Utensil Pocket

Ideal for storing cooking utensils, small containers, and other kitchen essentials.

### Perforated Utensil Holder

Made with a perforated stainless steel panel for efficient drainage. Attaches to either the inside or outside of the dish drying rack.

## CLEAN EDGE SERIES

### Clean Edge 4.0

#### Size

(W) 52 × (D) 31.5-53 × (H) 16.5 cm  
(Height with Multi Shelf installed: 39 cm)
