Edge Noble Dish Rack – Full Set

Product size 52(W) x 32.5(D) x 34.5(H) cm
(Depth extends to 55 cm)

Colors Champagne Gold / Titanium Gray

Components Main body, auto-drain tray, multi-purpose wine glass holder, utensil pocket, multi-shelf

Modular Design

The modular design makes assembly simple and tool-free.

304 Stainless Steel

We use highly durable, corrosion-resistant 304 stainless steel.

Anodized Aluminum Casing

Anodizing is a surface treatment that forms an oxide layer to prevent corrosion and increase durability.

Our anodized aluminum frames combine durability with a luxurious appearance.

7mm Support Wires

The Edge Noble Dish Rack uses 7 mm stainless steel wires in its side columns and frames for exceptional stability without wobbling. It supports loads of up to 60 kg.

Extendable Tray

The extendable tray provides extra space for freshly washed ingredients and other items.

Sloped Auto-Drain Tray

The sloped tray drains water quickly, helping prevent pooling and stains and keeping your kitchen clean.

Multi-Shelf

The shelf is easy to attach and remove.

Utensil Pocket

Made of hygienic 304 stainless steel, this pocket is ideal for storing utensils, knives, and scissors.

Multi-Purpose Wine Glass Holder

Holds two wine glasses securely. Slightly raised ends prevent slipping. Also suitable for hanging dishcloths or storing cutting boards.
